10:00- Snack and Movement Break

10:30- Writing Lesson on **Teams**: How to Catch stories.

11:00- Writing Time:

- Writing Choice:

1. How to
Catch a
Leprechaun.

Would you create a trap with gold or set it up at the end of a rainbow?

2. How to
Catch a
House
Elf.

Would you bake a special treat and leave it to follow footprints?

3. How to
Catch a
Fairy.

Would you set up a trap inside or outside? Would you have it in the flower bed or by your bed?

Choose what you want to write about. Think about how you would catch the creature. What you would do to have them come into your trap. Then what you would do once you caught them.

Today: Draw a picture of your trap to catch your creature. Make a plan of what you want to write.

11:30- Math Work:

12:00- Lunch and movement break

1:00- Social Studies Lesson on **Teams**: Animals of Atlantic Canada

1:30- Social Studies Time: Complete the matching sheet. Match the animal, name and description and glue together.

Black Bear	Raccoon			This animal is a scavenger and will dig through garbage cans. It eats plants and small animals and does not hibernate all winter.	This animal prefers to live in forests near water. They are often seen as pests because they eat garbage and can escape traps.
Red Fox	Flying Squirrel			This animal lives in all provinces across Canada. It is a very good hunter. They mostly live alone but travel with their young. Their sandy red colour gives them their name.	This animal cannot fly, but it glides when it spreads its legs. It can glide from tree to tree to travel quickly and stay safe.
Moose	Snow Crab			This animal travels across Canada looking for food. Sometimes it travels far north to the territories. It eats twigs, green plants and buds.	These animals are crustaceans which means that they have a hard protective shell. They can grow up to two feet long.
Blue Whale	Harbour Seal			This is the largest animal on Earth! They travel in groups of two or three and are found in the Pacific and Atlantic Oceans.	This animal is found on most Canadian coastlines. It is a skilled diver and is also very playful. They eat mostly fish.
Orca Whale	Northern Leopard Frog			This animal lives in cooler waters and travels in large packs. They travel in large groups so they can hunt larger prey, like whales.	This medium-sized amphibian is common across Canada and lives mostly in ponds, marshes and grasslands.
